Career Summary

An energetic and imaginative young web developer who is able to work alongside other talented IT professionals in creating websites to the very highest standards. I have a high awareness of industry issues and trends, particularly in regard to accessibility, usability, emerging technologies

Web developer skills acquired

- Establishing the purpose of the website based upon its target audience.
- Aware of international web standards.
- Comprehensive knowledge of HTML 5, XHTML, CSS, JavaScript, HTML5 and CSS3.
- Creating SPA using reactjs and APIS using Expressjs.
- Good at developing application using popular MERN stack
- Producing, modifying and maintaining websites and web applications
- Strong Foundation of Javascript, ES5 and ES6 and OOP concepts.
- Creating quality web pages.
- Understanding of restful apis.
- Creating responsive web pages using CSS frameworks like bootstrap and using custom media queries.
- Hands on experience in server side scripting language like PHP and NODEJS.
- Hands on Practice with MVC frameworks like Codeigniter, Laravel and Expressjs.
- Solid understanding of JQuery and Ajax.

I am continuously evolving my skills by learning advanced concepts in javascript, understanding new libraries and frameworks like **react and angular** to create single page applications.

My goal is to become associated with a company where I can utilize my skills and gain further experience while enhancing the company's productivity and reputation.
